
Number of oocyte for IVF
Number of MII oocyte for ICSI
Number of oocyte for ICSI
Number of oocyte retrieved
Concentration after semen optimization treatment
NP sperm count before semen optimization treatment
Number of punctured follicles
Abstinence days
The number of follicles ≥14mm at hCG day
Testosterone
Liquefying time
Prolactin
Classification of T
anti-Müllerian hormone
LH at hCG day
E2 at hCG day
IM sperm count after semen optimization treatment
Volume before semen optimization treatment
PR sperm count before semen optimization treatment
Endometrial thickness at hCG day
−0.1
0.0
0.1
0.2
SHAP value (impact on model output)
High
Feature value
Low
